MISSIONARY HIGHLIGHTS

Missionary SAM BRIGHT:

Venkatraman (63) a devoted Hindu became seriously ill due to a heart problem. He got admitted in the hospital and his condition became critical. We met him at the hospital and told the love of Jesus and His power to heal sickness. We earnestly prayed to God and he was healed completely and got discharged from the hospital. He accepted Christ as his savior. His son and daughter were so thankful to God for healing their father and they realized Jesus is the one, true, living God and accepted Christ. They are conducting prayer in their house once a month and they are sharing the gospel to the people and are leading them to the church. Praise God!

Missionary SELVA DHASS:

Mikel (55) a famous sorcerer of our village built a temple in his house and worshipped Vannaramadan as god and offered sacrifices. One day his wife suddenly fell unconscious. After a while she woke up but after every ten minutes, she fell unconscious again. She screamed of headache and pain. They rushed her to the hospital but there was no cure. We came to know about her plight and visited them and shared the gospel and prayed for her healing. Soon after our prayers she was delivered completely! God delivered her from the evil spirits that were controlling her and she accepted Christ as her Savior and took water baptism. She is now coming to the church regularly and worshipping the Lord. Praise God!

(continued)

Missionary AMIRTHA RAJ P:

Gayathri (48) a Hindu suffered from tuberculosis for fourteen years. She took various medicines but her condition was the same. Suddenly her condition worsened and she became bedridden. She was battling for her life for the past two months, she was not able to eat any food. We came to know her critical situation and visited her and asked her if we could pray for her healing. She believed and we earnestly prayed for her and from that day on, her health condition improved. She was able to sit and gradually take foods. We visited her again and shared to her the love of Christ and she accepted Christ as her Savior and is now coming to the church. Praise God!

Missionary DEVARAJ S:

Kavitha (28) was demon possessed and suffered the torments of the evil spirits for six years. She roamed the streets and sat beside wells and lakes and the demon manifested itself on most days. She fell sick often and had no peace. One day as we were distributing tracts in her village she came forward and received the tracts from us. She requested us to pray for her deliverance. As soon as we prayed the demons troubled her and left her body. She got delivered completely and glorified Jesus. She accepted Christ as her Savior and is coming to the church. Praise God for the deliverance!

ROI

Folks in the financial world recognize the letters above and their meaning "Return On Investment". It is a financial ratio intended to measure the benefit obtained from an investment. This is an important factor for everyone. We invest our time and resources and want to know what is the yield? We even pay others to advise us as to what investments will yield the most ROI. Many of us are reaping the benefits of investing during our working years and with other benefits are able to live on these returns during our retirement years.

Our Jesus tells us in Matt. 6:19-21 that 'where our treasure is, there will our heart be'. Imagine yourself in heaven with Jesus and the investment you made on earth prior to your departure continues to yield souls for His Kingdom. What an exciting thought to see eternal souls coming into heaven because of what God blessed you with on this earth you made investments in eternity and continue to receive eternal ROI.

In Matthew 25:14-30, Jesus gives us examples of what He gives us and how we should invest for His Kingdom purposes.

There are precious saints in India that are willing to suffer great hardships, beatings, humiliation, even death for the sake of the gospel. The single most difficulty they face is poverty/starvation. Some leave the ministry due to the fact they and their families face starvation when all alone in the hostile villages. I have personally seen with my own eyes the transformation of people and villages that occur when financial gifts & training are provided for these faithful servants of our Lord Jesus.

100% of your financial gifts go directly to the mission field in India. Please consider sponsoring a missionary family for \$50/month. Also give prayerful consideration to establishing a trust that will continue to provide eternal ROI after you have gone 'home'.
